SKILLS

Languages: C++, Java, JavaScript
Frameworks: Next.js, Node.js, React.js, Spring Boot, Vite
Tools/Platforms: Git, GitHub, Postman, Jenkins, Docker, IntelliJ IDEA
Databases: MySQL, MongoDB
Soft Skills: Problem-Solving, Continuous Learning, Adaptability

PROJECTS

CodeArena| Spring Boot | MySQL | Docker | Jenkins | CI/CD | Live| GitHub — Jul' 26

- Developed a full-stack quiz application using Spring Boot , containerising the application with **Docker** Compose.
- Designed and implemented a **seven-stage Jenkins CI/CD pipeline** to automatically build, test, and deploy the application upon GitHub code pushes, integrating **ngrok** for webhook connectivity.
- Delivered a fully containerised **CI/CD workflow** that automated the process from code commit through deployment, demonstrating practical experience with Jenkins, Docker, GitHub, and DevOps practices**.**

Advanced Bug Tracker and Task Management System| HTML | CSS |Node.js |MongoDB | Live | GitHub — May' 26

- Designed and developed an Advanced Bug Tracker & Task Management System to streamline bug reporting and task assignment for software development teams, with role-based access for 4 user roles
- Engineered a full-stack application using Node.js, Express.js, MongoDB, Mongoose, JWT authentication, and bcrypt password hashing, featuring **25+ REST API** endpoints and MVC architecture.
- Achieved a production-ready deployment with secure authentication and complete bug lifecycle management, role-specific dashboards for each user, and a scalable cloud-based backend demonstrating end-to-end full-stack development skills.

Savvy AI Chat Bot | React.js | Node.js | Express.js | JavaScript | Groq AI API | GitHub — Apr' 26

- Created an AI-powered study tool where users select a subject and receive auto-generated quizzes and explanations through an interactive chat interface powered by the Groq AI API.
- Handled prompt construction and JSON response parsing on the backend to transform raw AI output into clean, interactive multiple-choice questions on the frontend.
- Added a progress dashboard that tracks quiz scores across 50+ attempts, enabling users to monitor performance and identify topics requiring additional practice.

TRAINING

DevOps Fundamentals: Building Skills from Code to Deployment| Certificate — Jul' 26
Lovely Professional University | Centre for Professional Enhancement

- Gained hands-on experience with **DevOps** practices**,** version control, CI/CD, and automated deployment.
- Worked with Git, GitHub, Docker, Jenkins, and Maven to manage, build, test, and deploy applications.
- Built and containerised a Spring Boot application using Docker and Docker Compose.
- Configured a multi-stage **Jenkins CI/CD pipeline** for automated build, testing, and deployment.
- Integrated **GitHub webhooks with Jenkins** to trigger pipelines automatically on code changes.

CERTIFICATES

- Programming with C++ | Infosys Springboard | Certificate — Aug' 25
- Fundamentals of Software Testing | Skillera | Certificate — Mar ' 25
- Linux Command and Shell Scripting | Skillera | Certificate — Nov' 24

ACHIEVEMENTS

- HackerRank: Achieved 4-Star Problem Solving recognition through consistent practice of DSA
- LeetCode / NeetCode**:** Solved 50+ Data Structures and Algorithms problems.
- Open Source Contributor: Successfully contributed and merged a Pull Request to an open-source project, improving automated test coverage for frontend utility functions.

EDUCATION

Lovely Professional University — Phagwara, Punjab
Bachelor of Technology — Aug' 24- Present
Computer Science and Engineering; CGPA: 7.36

St. Joseph Inter College — Lucknow, Uttar Pradesh
Intermediate — Mar' 23-Feb' 24
Percentage: 86%

St. Joseph Inter College — Lucknow, Uttar Pradesh
Matriculation — Mar' 21-Feb' 22
Percentage: 91.5%
